Blanco, J. (2010). *Please stop laughing at me: One woman's inspirational true story* Adams Media.

While other children were daydreaming about dances, first kisses, and college, Jodee Blanco was trying to figure out how to go from homeroom to study hall without being taunted or spit upon as she walked through the halls.

This powerful, unforgettable memoir chronicles how one child was shunned--and even physically abused--by her classmates from elementary school through high school. It is an unflinching look at what it means to be the outcast, how even the most loving parents can get it all wrong, why schools are often unable to prevent disaster, and how bullying has been misunderstood and mishandled by the mental health community.

You will be shocked, moved, and ultimately inspired by this harrowing tale of survival against insurmountable odds. This vivid story will open your eyes to the harsh realities and long-term consequences of bullying--and how all of us can make a difference in the lives of teens today. 0

The birth of the Internet revolutionized communication, information, social networking, shopping and crime. Thieves, predators, and bullies have all made the Internet their new pipeline to find victims. Part of the What’s the Issue? series, Virtual Danger Keeping Safe
Online explores the tricks that criminals use to prey on unsuspecting Web users and identifies ways to avoid becoming a victim. Personal stories, quizzes, and places to get help are included.

Packed with tips, quizzes, and "What would you do?" scenarios, this book can help girls be smart--and safe--Internet users. Parents can find great advice for teaching girls what to do (and what not to do) on the Web: from e-mail and instant messaging to blogs and social networks. Includes journal pages for recording favorite Web sites.

It's the deadliest combination going: bullies who terrorize, bullied kids who are afraid to tell, bystanders who watch, and adults who see the incidents as a normal part of childhood. All it takes to understand that this is a recipe for tragedy is a glance at headlines across the country. In this updated edition of *The Bully, the Bullied, and the Bystander*, which includes a new section on cyberbullying, one of the world's most trusted parenting educators gives parents, caregivers, educators—and most of all, kids—the tools to break the cycle of violence.

Drawing on her decades of work with troubled youth, and her wide experience in the areas of conflict resolution and reconciliatory justice, Barbara Coloroso explains: The three kinds of bullying, and the differences between boy and girl bullies Four abilities that protect your child from succumbing to bullying Seven steps to take if your child is a bully How to help the bullied child heal and how to effectively discipline the bully How to evaluate a school's antibullying policy And much more

This compassionate and practical guide has become the groundbreaking reference on the subject of bullying.

It is a practice that is becoming increasingly popular among teens in the United States. Whether you chose to admit it or not, teenagers are sending nude pictures of themselves to their peers. This book was written with the purpose to provide statics and awareness to parents about sexting. Crack the code and eradicate sexting.

The Secret's Out is a collection of short stories to highlight the issue of bullying. The stories are fiction, yet the topics and situations described are very real. Jason Ellis worked with Rhiannon Foxwell & Nathan Ham. They set up a bullying campaign in their own school to tackle the problem. All three of us hope you enjoy the book and realize how important the issues are.

Book excerpt:
I don't know what to do...aunty Susan is downstairs clearing up after dinner so I told her I was coming to change and check my homework ready for later...I don't want to sit down and talk about anything with her.
I wish she hadn't seen the bruises earlier. I'm sure she suspects something is happening at school now...and she'll tell mum about it. I know mum will be happier now because of her new job but I still don't want to worry her about anything...I can manage at school and I'm sure Steve will leave me alone once I'm a bit older...I'm sure he will.

Empty shadows (bullying prevention series) 185649000045 PizzaOwl Productions

Naomi is having a difficult time in life right now. She is still dealing with the tragic hotel fire death of her immediate family, and while living with her loving grandparents far away from old friends, she is being verbally and emotionally bullied by uncaring kids at her new school.

Every day Naomi has to come home from a bad day at school to the big, not yet home, farmhouse that belongs to her grandparents.

Her grandparents know that their granddaughter isn’t very happy, and they try to show her that they love her and will do everything they can to help her with this problem at school. But at present Grandma is having her own problems to deal with; bad nightmares that seem to center around a particular moon-faced doll...a doll that is actually in Naomi’s room.

Something else is happening too. ‘Someone’ appears to be reaching out ‘from the past’ to help Grandma and Naomi. But who is this person? Why is Grandma having these dreams in the first place; and why is this moon-faced doll an integral part of the story?

The answers to these questions and ‘more’ are waiting to be discovered by kids and adults alike, when they see "Empty Shadows," a very moving story centered around childhood bullying. Study guide included for classroom settings.

MySpace. YouTube. Facebook. Friendster. Nearly every teen in America is on the Internet every day, socializing with friends and strangers alike, "trying on" identities, and building a virtual profile of themselves - one that many kids insist is a more honest depiction of who they really are than the person they portray at home or in school.
Growing Up Online peers inside the world of this cyber-savvy generation through the eyes of teens and their parents, who often find themselves on opposite sides of a new digital divide. A generation with a radically different notion of privacy and personal space, today's adolescents are grappling with issues their parents never had to deal with: from cyber bullying to instant "Internet fame," to the specter of online sexual predators.
Frontline investigates the risks, realities, and misconceptions of teenage self-expression on the World Wide Web.

Olivia Gardner, a northern California teenager, was severely taunted and cyber-bullied by her classmates for more than two years. News of her bullying spread, eventually reaching two teenage girls from a neighboring town, sisters Emily and Sarah Buder. The girls were so moved by Olivia's story that they initiated a letter-writing campaign to help lift her spirits. It was a tender gesture of solidarity that set off an overwhelming chain reaction of support, encouragement, and love.

In Letters to a Bullied Girl, Olivia and the Buder sisters share an inspiring selection of messages that arrived from across America—the personal, often painful remembrances of
former targets, remorseful bullies, and sympathetic bystanders. Letters to a Bullied Girl examines our national bullying epidemic from a variety of angles and perspectives, and includes practical guidance from bullying expert Barbara Coloroso, author of The Bully, the Bullied, and the Bystander. Though addressed to Olivia, the letters speak to all young people who have been bullied, offer advice and hope to those who suffer, and provide a wake-up call to all who have ever been involved in bullying.

Li, Q. (2006). Cyberbullying in schools: A research of gender differences. This study investigates the nature and the extent of adolescences’ experience of cyberbullying. A survey study of 264 students from three junior high schools was conducted. In this article, ‘cyberbullying’ refers to bullying via electronic communication tools. The results show that close to half of the students were bully victims and about one in four had been cyber-bullied. Over half of the students reported that they knew someone being cyberbullied. Almost half of the cyberbullies used electronic means to harass others more than three times. The majority of the cyber-bully victims and bystanders did not report the incidents to adults. When gender was considered, significant differences were identified in terms of bullying and cyber- bullying. Males were more likely to be bullies and cyberbullies than their female counterparts. In addition, female cyberbully victims were more likely to inform adults than their male counterparts.

"Bullying has a tendency to be associated with aggression between children in the
playground, but bullying and abuse can also be observed in other social settings. Bullying in Different Contexts brings together, for the first time, leading international researchers to discuss these behaviours in a wide range of settings, including preschool, school, the home, residential care, prisons, the workplace and cyberspace. The authors provide background to the different contexts, discuss the impact and types of interpersonal aggression and the characteristics of those involved. A final chapter collates the findings from each context to draw conclusions on the similarities and differences between the behaviours, risk factors for involvement and theoretical approaches to explain bullying. This original volume will further our understanding of bullying and inform preventative and intervention work. The authors seek to show how research from diverse settings may inform our understanding of the bullying phenomenon as a whole"-- Provided by publisher.

Rogers, V. (2010). *Cyberbullying: Activities to help children and teens to stay safe in a texting, twittering, social networking world* (scm theological commentary on) (1

Children and teenagers text, network and twitter online as second nature, but when emails or texts are used to threaten, harass, intimidate or embarrass someone, they can turn from being a source of enjoyment to a source of crippling anxiety and fear. This approachable book is packed with advice, games and activities for groups and individuals to help young people understand what cyberbullying is, how they should behave online and how they can stay safe. The activities range from quizzes and competitions to storyboard games and art activities, and cover issues such as how easily personal information can be forwarded, the risks posed by unknown 'friends' on social networking sites, and how to discuss and deal with bullying issues. They are designed to encourage young people to think about their own behaviour and attitudes and give them the skills and knowledge to stay safe in a digital world. Particularly suited to children and teens aged 11+, this essential book will be an invaluable resource for parents, teachers, youth workers, and anyone working with young people who could be exposed to cyberbullying.

From the creator of "Broken Toy," "Empty Shadows," and "Epilogue" comes a powerful and uplifting story about a bully who had to become a victim in order to understand the pain of bullied and tormented children.
"SCARS" tells the story of a popular middle school student named Billy, whom along with his best friends, picks on a smaller boy named Christopher. Christopher, who lost his mother to cancer six months earlier, remains the target of cruel remarks; even those about his mom.
Billy would have continued hurting Christopher if it wasn't for a sudden unforeseen event in Billy's life--an accident that changes his life forever. Now, scarred from being burned, he is the one who is different and his former friends turn on him. A move to a new school shows Billy the value of acceptance, sensitivity and becoming a caring person. Study guide included for classroom settings. 0

This book looks in depth at the emerging issue of cyber-bullying. In this increasingly digital world cyber-bullying has emerged as an electronic form of bullying that is difficult to monitor or supervise because it often occurs outside the physical school setting and outside school hours on home computers and personal phones. These web-based and mobile technologies are providing young people with what has been described as: ‘an arsenal of weapons for social cruelty’.

These emerging issues have created an urgent need for a practical book grounded in comprehensive scholarship that addresses the policy-vacuum and provides practical educational responses to cyber-bullying. Written by one of the few experts on the topic, *Cyber-Bullying develops guidelines for teachers, head teachers and administrators regarding the extent of their obligations to prevent and reduce cyber-bullying. The book also highlights ways in which schools can network with parents, police, technology providers and community organizations to provide support systems for victims (and perpetrators) of cyber-bullying.*

Many young people cannot remember a time before Instant Messaging (IM), cell phone text messaging, video conferencing, blogging, e-mailing, and MySpace and Facebook postings existed. Thanks to the ubiquitous nature of technology in the 21st century, digital natives are accustomed to seeing, and being seen, on a scale that was unimaginable by their parents and teachers. This limitless access to information, peers, and even strangers around the globe brings with it a new set of safety concerns for parents and school personnel. Although schools have made concerted efforts to curb Internet abuse by developing acceptable use policies and installing filtering software for
websites, expanded forms of technology and differing formats of information presentation have surfaced, and they warrant a new discussion of digital safety, abuse, and bullying. In this article, the author discusses technology abuses of the 21st century--cyberbullying and sexting--and provides tips to parents and educators for preventing cyberbullying. Responsible parents and educators have an obligation to understand the potential uses of new technologies and guide young people in their responsible implementation of them.

Smith, P. K. (2010). *Cyberbullying: Abusive relationships in cyberspace (zeitschrift fur Psychologie/Journal of psychology)* (1st ed.) Hogrefe Publishing. Cyberbullying is a major and growing phenomenon that may take place by means of mobile devices, websites such as social networking sites or virtual worlds, videos, e-mails, or other means. This monograph brings you up to date with the latest research by leading scientists on this new form of bullying and indicates the directions future investigations may take. An introductory review examines, among other things, the differences and similarities of cyberbullying and traditional bullying. A series of original research papers by leading scientists then cover topics such as power imbalance, prevalence at different ages, 'grieving' in virtual worlds, motivation, interventions, social information processing factors, emotional impact of bullying, risk factors, as well as methodological considerations in cyberbullying research. Further, 'Research Spotlights' present promising, but not yet published results in brief form, 'Opinion Pieces' allow distinguished contributors to air matters of current debate and discussion, and 'Horizons' articles briefly describe major ongoing projects in various countries, such as the European Project on Bullying and Cyberbullying, the 'Kids Online' project, and the Internet Rights Observatory. The Zeitschrift fur Psychologie, founded in 1890, is the oldest psychology periodical in Europe and the second oldest in the world. It will now, with a change in language to English, be published as a series of monographs on basic and applied topics in psychology, each featuring a major overview article, peer-reviewed original research papers, as well as brief 'Research Spotlight' and 'Horizons' reports about ongoing or
forthcoming projects. Each carefully compiled monograph is edited by leading experts and features articles by scientists at the forefront of current research.
